## **Implementing CRM for Result tracking of a candidate with internal marks.**

### **Description:**

Administrator should be able to create all base data including Semester, Candidate, Course and Lecturer ,Lecturer should have the ability to create Internal Results,Dean, who is one of the Lecturer, should be the only one with ability to update Internal Results,Re-evaluation Can be initialised by Candidate for all Internal Results.Now only dean can update the marks after re- evaluation

### **Milestone 1:Creation Salesforce Org:**

#### **Introduction**

Are you new to Salesforce? Not sure exactly what it is, or how to use it? Don't know where you should start on your learning journey? If you've answered yes to any of these questions, then you're in the right place. This module is for you.

Welcome to Salesforce! Salesforce is game-changing technology, with a host of productivity-boosting features, that will help you sell smarter and faster. As you work toward your badge for this module, we'll take you through these features and answer the question, "What is Salesforce, anyway?"

#### **What Is Salesforce?**

Salesforce is your customer success platform, designed to help you sell, service, market, analyze, and connect with your customers.

Salesforce has everything you need to run your business from anywhere. Using standard products and features, you can manage relationships with prospects and customers, collaborate and engage with employees and partners, and store your data securely in the cloud.

So what does that really mean? Well, before Salesforce, your contacts, emails, follow-up tasks, and prospective deals might have been organized something like this:

<https://youtu.be/r9EX3IGde5k>

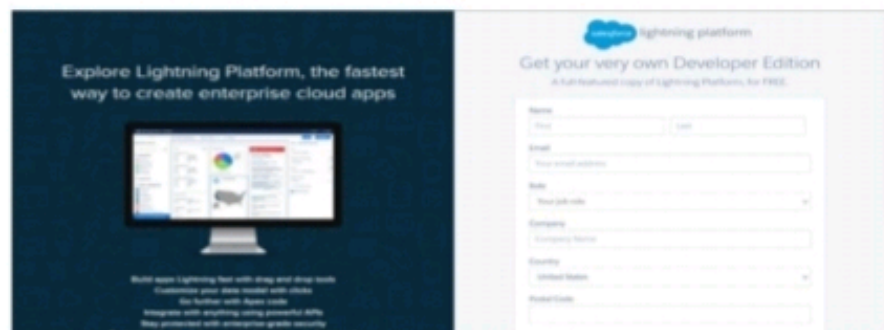

### Activity 1:

#### Creating Developer Account

Creating a developer org in salesforce.

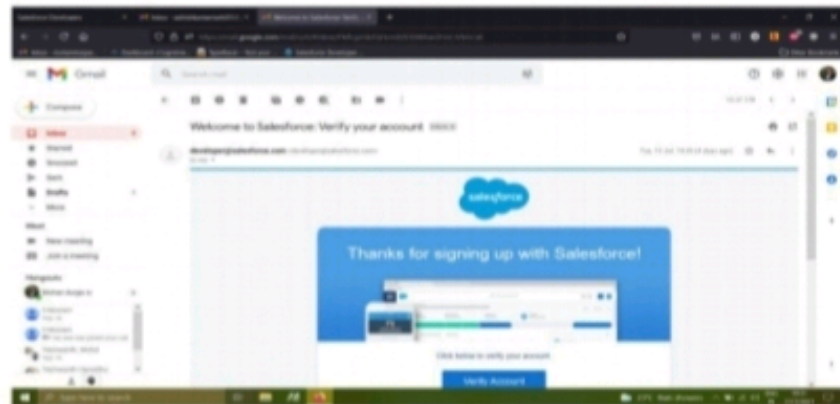

1. Go to [developers.salesforce.com/](https://developers.salesforce.com/)
2. Click on sign up.
3. On the sign up form, enter the following details :
  - a. First name & Last name
  - a. Email
  - b. Role : Developer
  - c. Company : College Name
  - d. Country : India
  - e. Postal Code : pin code
  - f. Username : should be a combination of your name and company  
This need not be an actual email id, you can give anything in the format :  
[username@organization.com](mailto:username@organization.com)

Click on sign up after filling these.

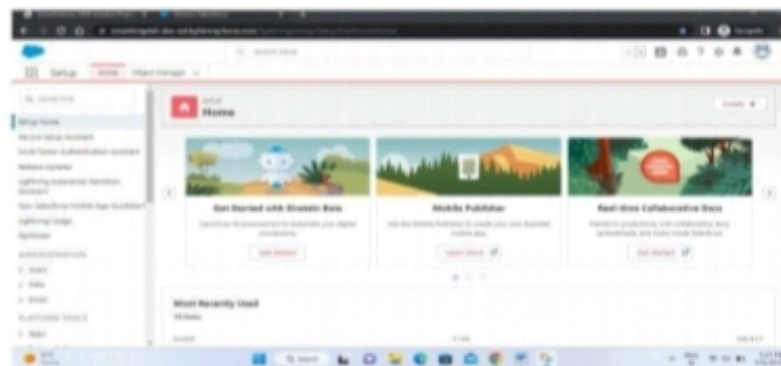

#### Account Activation

Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins, as

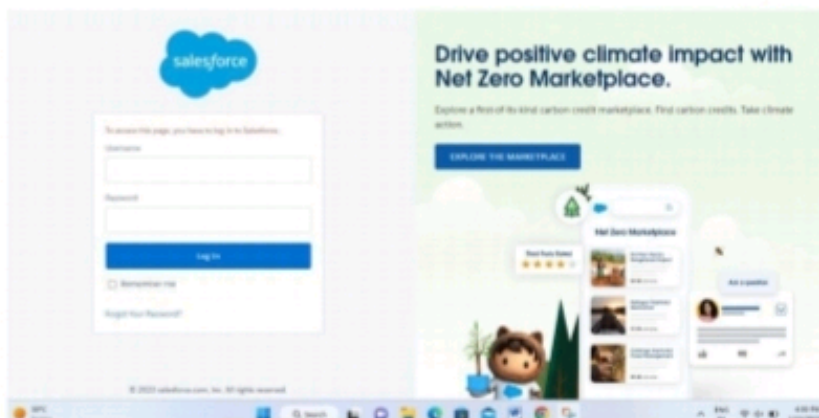

## Login To Your Salesforce Account

1. Go to salesforce.com and click on login.
2. Enter the username and password that you just created.
3. After login this is the home page which you will see.

## Salesforce Login

<https://login.salesforce.com>

## **Milestone-2:Object**

Salesforce objects are database tables that permit you to store data that is specific to an organisation. Salesforce objects are of two types: Standard Objects: Standard objects are the kind of objects that are provided by salesforce.com such as users, contracts, reports, dashboards, etc.

### **Custom objects:**

- 1.Semester
- 2.Candidate
- 3.Course Details
- 4.Lecturer Details
- 5.Internal results

### **Activity-1:**

#### **To Create an object:**

Creation of Objects for Candidate Internal Result Card, For this Candidate Internal Result Card we need to create 5 objects i.e Semester,Candidate,Course Details,Lecturer Details,Internal Results.

The below steps will assist you in creating those objects.

- Click on the gear icon and then select Setup.
- Click on the object manager tab just beside the home tab.
- After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.

On the Custom Object Definition page, create the object as follows:

- Label: Semester
- Plural Label: Semesters

- Record Name: Semester Name
- Check the Allow Reports checkbox
- Check the Allow Search checkbox
- Click Save.
- Now create a custom tab. Click the Home tab, enter Tabs in Quick Find and select Tabs.
- Under Custom Object Tabs, click New.
- For Object, select Semester.
- For Tab Style, select any icon.
- Leave all defaults as is. Click Next, Next, and Save.

To Navigate to Setup page:

Click on gear icon → click setup.

To create an object:

From the setup page → Click on Object Manager → Click on Create → Click on Custom Object.

On Custom object defining page:

Enter the label name, plural label name, click on Allow reports, Allow search → Save.

**Custom Object Definition Edit**

**Custom Object Information**

The single and plural labels are used to identify the object.

Object Name:  Example: Account

Object Label:  Example: Account

The Object Name is used when referencing the object in Apex.

Object Description:

Custom Object Help Setting: ☐ Open the standard Salesforce user Help & Training window. ☐ Open a custom entry in the custom object.

**Object Record Name Label and Format**

The Record Name appears in object records. You can select how to display and format records. For example, the Record Name for Account is "Account Name" and for Case is "Case Number". Note that the Record Name field is always called "Name" when referenced via the API.

Record Name:  Example: AccountName

Name Type:  Example: Text

**Object Features**

☒ View Records

☐ Track Field History

☐ Allow in Chatter Groups

☐ Enable Feeds

**Object Classification**

When these settings are enabled, the object is classified as an Enterprise Application object. When these settings are disabled, the object is classified as a Light Application object. Learn more.

☒ When Creating

☒ When Bulk API Access

☒ When Streaming API Access

**Deployment Status**

☐ In Development

☒ Deployed

**Object Search**

When this setting is enabled, your users can find records of this object type when they search. Learn more.

☒ View Search

**Object Creation Options (Available only when custom object is first created)**

☐ Add Fields and Relationships when set to default object layout

☐ Launch New Custom Tab Object after saving this custom object

**Activity-2:** Follow Similar steps to create Candidate, Course Details, Lecturer Details, Internal results Objects.

## **Milestone -2: Fields and Relationship**

An object relationship in Salesforce is a two-way association between two objects. Relationships are created by creating custom relationship fields on an object. This is done so that when users view records, they can also see and access related data.

## Activity-1:

### Creation of fields:

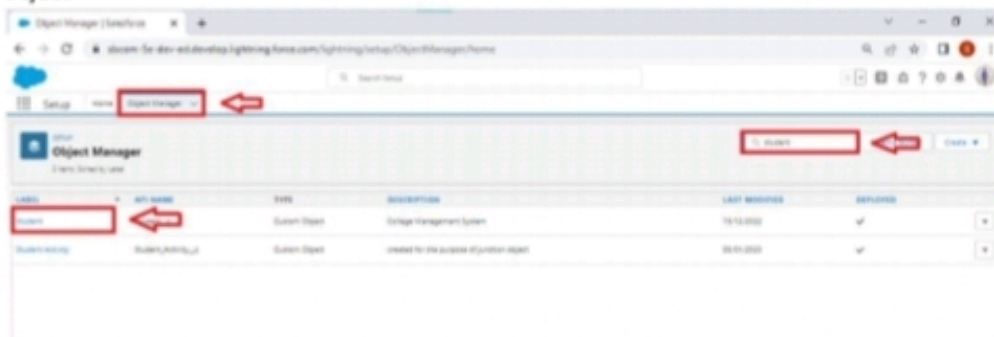

- Click the gear icon and select Setup. This launches Setup in a new tab.
- Click the Object Manager tab next to Home.
- Select Semester.
- Select Fields & Relationships from the left navigation, and click New

Now ready to make a custom field. Let's do this!

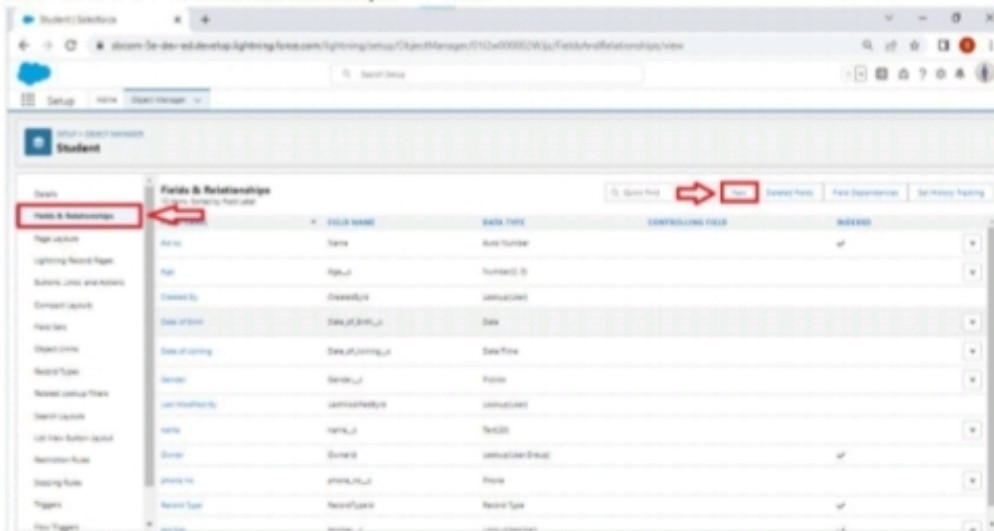

- Select the Text as the Data Type, then click Next.
- For Field Label, Enter Semester Name.
- Click Next, Next, then Save

To create fields in an object:

Go to setup → click on Object Manager → type object name in search bar → click on the object.

Now click on "Fields & Relationships" → New

Fill the field label name → Next → Next → Save.

The screenshot shows the Salesforce 'New Custom Field' configuration page. The 'Field Label' field is highlighted with a red box and an arrow pointing to it. The 'Field Name' field is also highlighted with a red box and an arrow pointing to it. The 'Field Type' is set to 'Text'. The 'Required' checkbox is checked. The 'Default Value' is set to '0'. The 'Save' button is highlighted with a red box and an arrow pointing to it.

**Activity-2:** Similarly Create Following Fields according to the objects.

Semester:	Candidate:	Course Details:	Lecturer Details:	Internal results
Semester Name	Candidate Name	Course Name	Lecturer Role	Candidate ID
Course(lookup)	Candidate Id	Course ID	Lecturer Name	Course ID
	Semester Name		Course ID	Marks
	Internal results(lookup)		Course(lookup)	

### **Milestone-3:Lightning App**

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs.

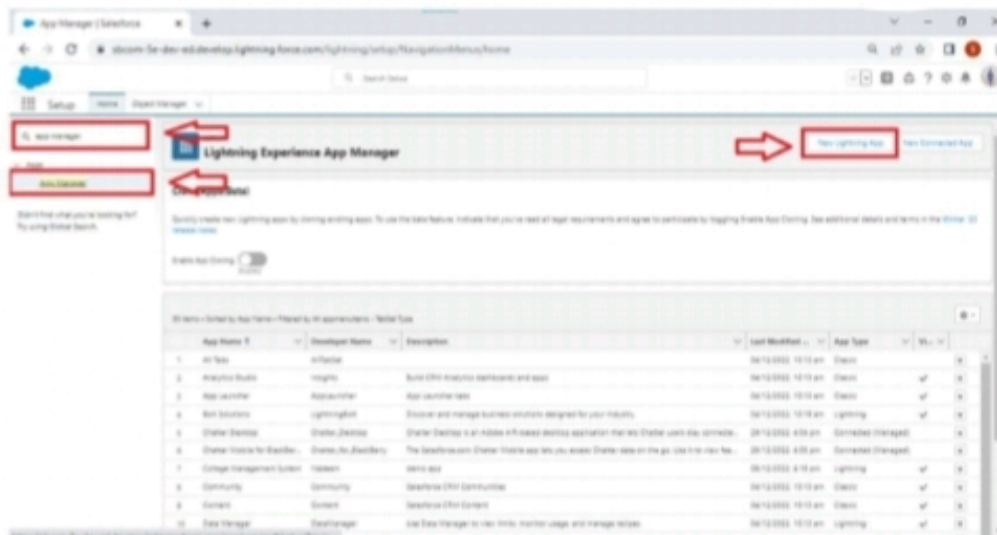

#### **Activity-1:**

##### **Create the Candidate Internal Result Card app:**

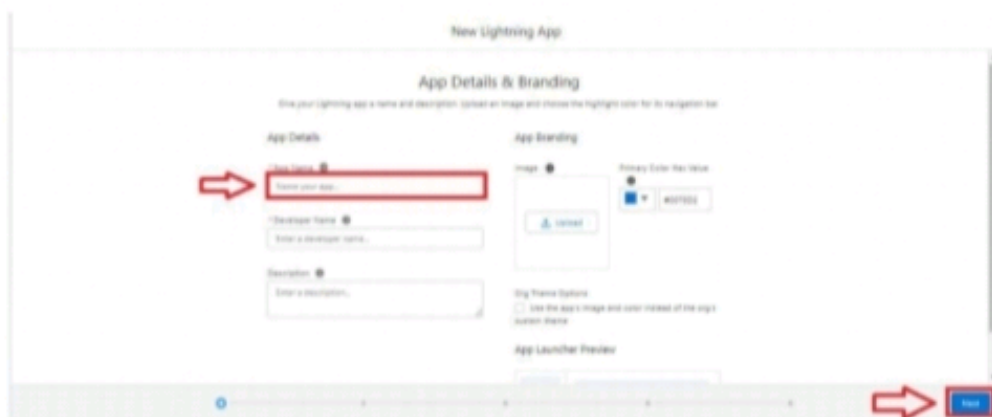

- From Setup, enter App Manager in the Quick Find and select App Manager.
- Click New Lightning App. Enter Candidate Internal Result Card as the App Name, then click Next
- Under App Options, leave the default selections and click Next.
- Under Utility Items, leave as is and click Next.
- From Available Items, select Semester,Candidate,Course Details,LecturerDetails,InternalResults and move them to Selected Items. Click Next.
- From Available Profiles, select System Administrator and move it to Selected Profiles. Click Save & Finish.
- To verify your changes, click the App Launcher, type Candidate Internal Result Card and select the Candidate Internal Result Card app.

To create a lightning app page:

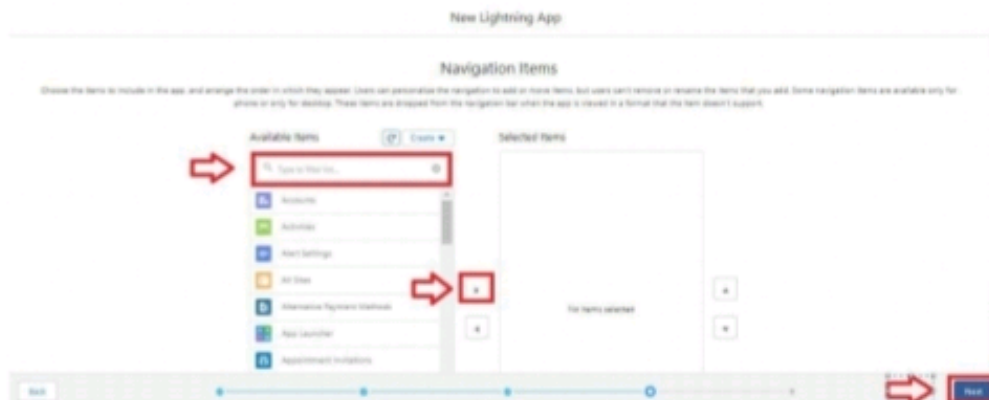

Go to setup page → search "app manager" in quick find → select "app manager" → click on New lightning App.

Fill the app name in app details and branding → Next → (App option page) keep it as default → Next → (Utility Items) keep it as default → Next → (Add Navigation Items) → Next → (Add User Profile) Add System Administrator → Next.

To Add Navigation Items:  
Select the items from the search bar and move it using the arrow button → Next.

To Add User Profiles:

Search profiles in search bar → click on the arrow button → save & finish.

### Milestone-4: Users

A user is anyone who logs in to Salesforce. Users are employees at your company, such as sales reps, managers, and IT specialists, who need access to the company's records. Every user in Salesforce has a user account.

#### **Activity 1:**

##### **Creating a Users:**

1. From Setup, in the Quick Find box, enter Users, and then select Users.
2. Click New User.
3. Enter the user's name John Martin and (Your) email address and a unique username in the form of an email address. By default, the username is the same as the email address.
4. Select a **Role**(none)
5. Select a User Licence As salesforce.
6. Select a profile as Salesforce User.
7. Check Generate new password and notify the user immediately to have the user's login name and a temporary password emailed to your email.

## **Milestone-5:Reports**

A report is a list of records that meet the criteria you define. It's displayed in Salesforce in rows and columns, and can be filtered, grouped, or displayed in a graphical chart. Every report is stored in a folder. Folders can be public, hidden, or shared, and can be set to read-only or read/write.

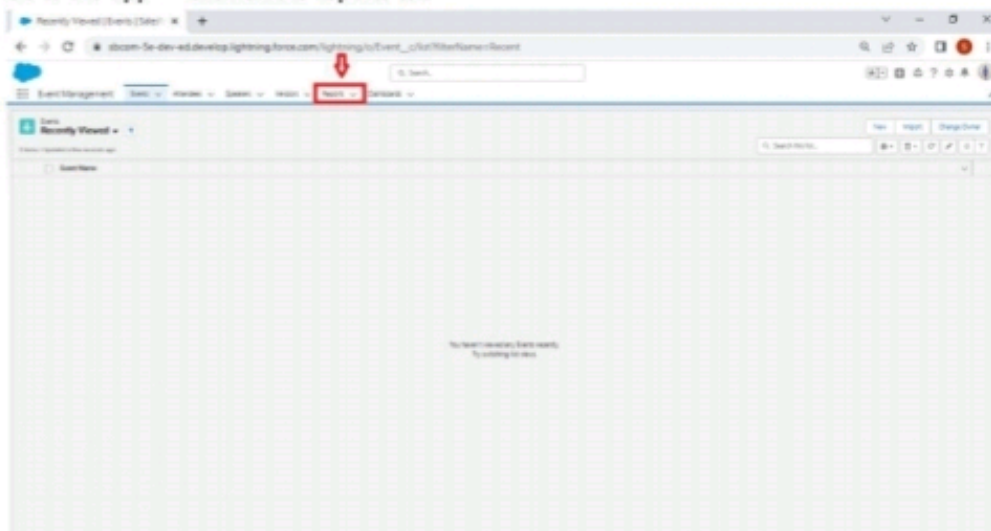

### **Activity 1:**

#### **Reports and dashboards:**

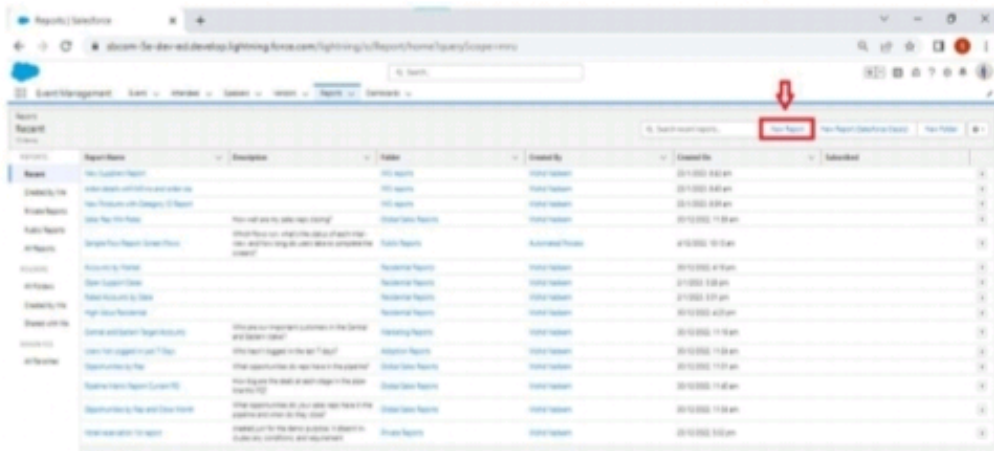

1. From the Reports tab, click New Report.
2. Select the report type as Candidate with candidate Marks for the report, and click Create.
3. Customise your report, then save or run it.

To create a report:

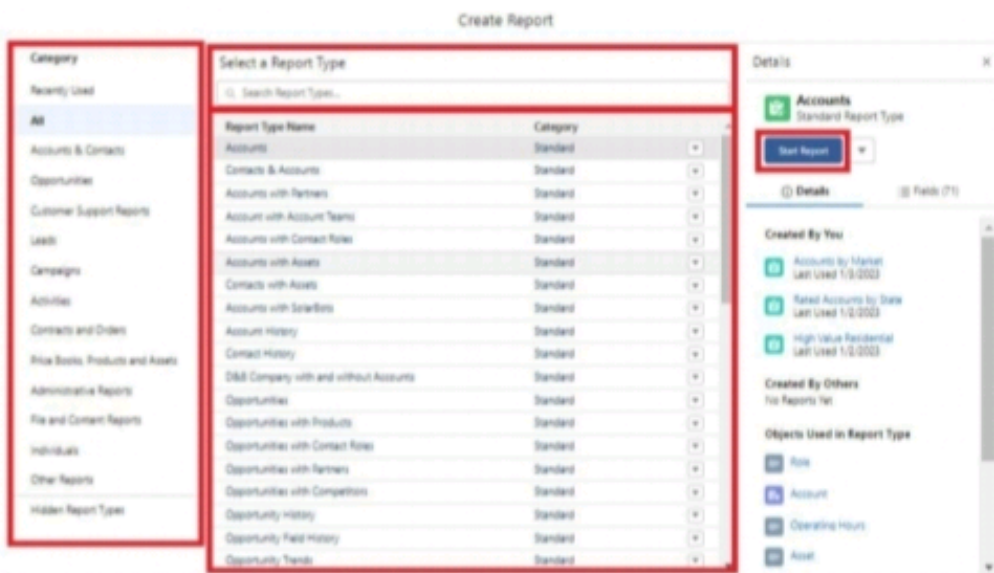

Go to the app → click on the reports tab

Click New Report

Select report type from category or from report type panel or from search panel → click on start report.

Customize your report, then save or run it.
